

MASTER LIMITED PARTNERSHIPS

Bracewell has been a pioneer in representing master limited partnerships since they were created in the 1980s, and we represent several of the largest MLPs in a variety of matters, including corporate, securities, M&A, finance, litigation and other matters on an ongoing basis. We are one of the few law firms with the expertise and capability to address the unique issues faced by MLPs. In addition to having a number of transactional lawyers with capital markets and M&A experience in MLP transactions, we have lawyers in our specialty practice areas, such as tax, environmental and energy regulation who regularly represent MLPs. The breadth of experience of these lawyers allows our firm to offer a full range of services to our MLP clients. Our attorneys have experience working on transactions involving MLPs involved in the pipeline, midstream, shipping, oil and gas, propane, refining, heating oil, coal and timber industries.
