

IP LITIGATION

Blending sophisticated litigation experience with in-depth training in science, energy and technology, Bracewell's intellectual property litigation practice delivers an aggressive and practical defense of our clients' valuable intellectual property rights.

Our seasoned litigators have significant experience in courtrooms across the country, from the Eastern District of Texas to the Southern District of New York and the United States Court of Appeals for the Federal Circuit. We understand effective courtroom procedure and speak the language of judges and juries. From the beginning of each matter, we work hand in hand with the firm's highly regarded patent, trademark and copyright attorneys to present the strongest case possible. By staffing leanly and assigning the right resources to each client matter, we ensure that cases are handled both effectively and efficiently — no stone goes unturned, and no resource is wasted.
